# Business description: Maersk Line

## Maersk Line - highlights

- Maersk Line is the Group's largest business unit in terms of revenue and the world's leading container shipping company
- Maersk Line's brand consist of Maersk Line, Safmarine, MCC and Seago Line, that operated a capacity of 2.6 million TEU
  - 275 owned and 299 chartered container vessels (2013)
  - 5 owned and 5 chartered multipurpose vessels (2013)
- New fleet – efficient on fuel and environmentally friendly
- In June 2013 Maersk Line, MSC and CMA CGM agreed in principle to establish a long term operational alliance on the East-West trades – the P3 Network. The aim is to start operations in mid 2014, subject to approval by regulatory authorities

## Operated fleet

## Our brands

## Vessel deliveries after 2013

- Triple-E – 18,000 TEU (16 vessels)
  - Nine Triple-E vessels to be delivered in 2014
  - Seven will be delivered in 2015
- No new vessel orders were placed since February 2011

## 2014 outlook:

Maersk Line expects a result in line with 2013 (USD 1.5bn).

Maersk Line aims to improve its competitiveness although unit cost reductions will be less than in 2013. Global demand for seaborne container transportation is expected to increase by 4-5% and Maersk Line aims to grow with the market. Excess capacity is likely to depress freight rates.

## ML volume versus fleet capacity development

## Highlights 2013

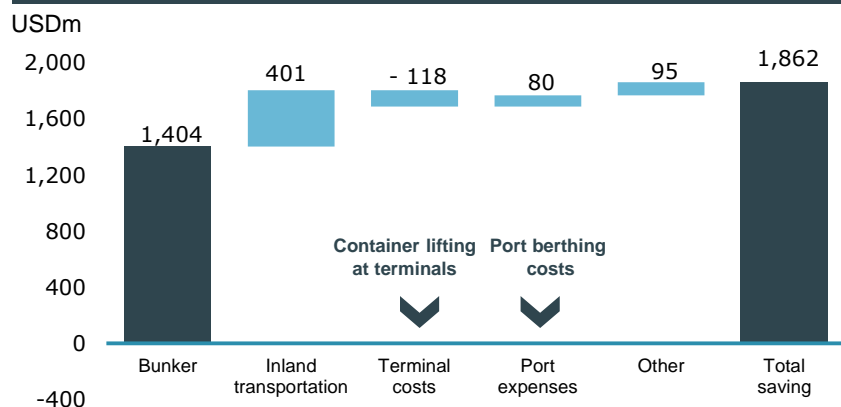

- Maersk Line delivered a profit of USD 1.5bn (USD 461m). ROIC was 7.4% (2.3%)
- Maersk Line generated a free cash flow of USD 2.1bn (negative USD 1.8bn)
- Cost base reduced by USD 1.9bn. Unit cost decreased by 10.6% or 323 USD/FFE to 2,731 USD/FFE as network and utilisation were optimised
- Freight rates declined by 7% to 2,674 USD/FFE
- Volumes increased by 4% to 8.8m FFE driven by increases on all trades with Intra trades growing the most at 10%. Backhaul volumes were up by 3%
- Fleet capacity increased by 0.2% to 2.6m TEU, but the number of vessels declined by 22 to 574 vessels as time charter vessels were returned. No new building orders placed since February 2011
- To optimise network costs, an agreement to terminate 14 finance leased vessels was entered into in Q4 2013
- P3 network intends to start operations mid 2014 pending regulatory approval

# Maersk Line gap to peers and cost reductions

Objective of +5%-points EBIT margin gap towards peers achieved for the third consecutive quarter\*

## Cost improvement 2013 vs. 2012, cost savings

## Comments

- Cost improvement of USD 1.9bn with bunker savings of USD 1.4bn as the main contributor of which USD 0.6bn was due to lower bunker price
- Bunker consumption per FFE was reduced by 12% resulting in a saving of USD 0.7bn
- Inland transportation cost was reduced by 13% or USD 401m compared to 2012
- Terminal expenses increased by 2% against a volume increase of 4%

Notes: Other includes reduced time charter cost, VSA cost and income, SG&A cost, equipment and feeder cost and others (e.g. other variable cost, cash flow hedge, other fixed costs)

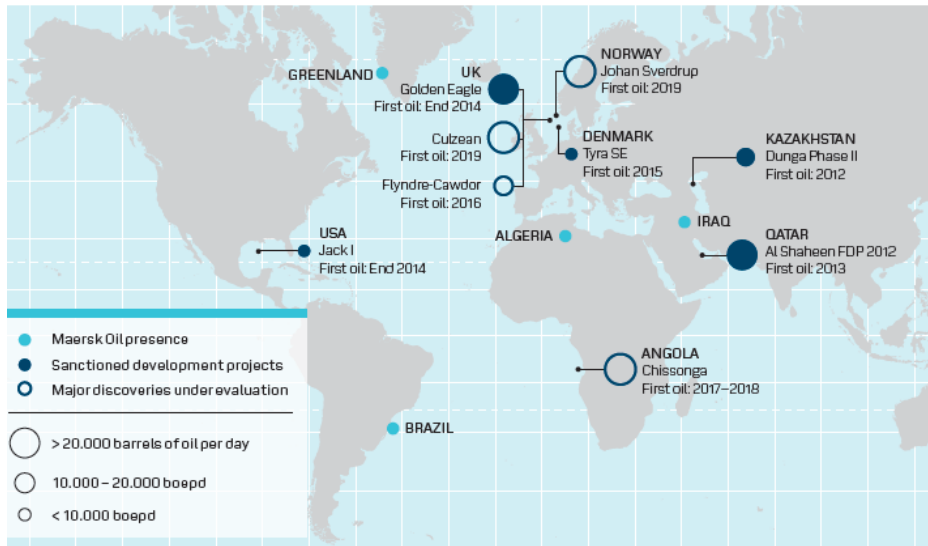

# Business description: Maersk Oil

## Maersk Oil - highlights

- Maersk Oil is a midsize international oil and gas company and ranks among the world's top independent oil and gas companies with an entitlement production of 235,000 boepd in 2013
- Production in 6 countries, exploration portfolio in 11 countries
- Reserves and resources (2P and 2C) of 1.36 bn bbl with proved reserves (2P) of 0.62 bn bbl at end-2012
- Target production of 400,000 boepd by 2020

## Maersk Oils entitlement share of production

### 2014 outlook:

Maersk Oil expects a result below 2013 (USD 1.0bn) based on an oil price of USD 104 per barrel.

Maersk Oil's entitlement production is expected to be above 240,000 boepd. Production will be higher in Q1 and Q4, whereas planned shut downs will result in lower production in Q2 and Q3. The entitlement production increase from 235,000 boepd in 2013 is mainly based on higher contributions from Algeria and UK.

Exploration costs are expected to be around USD 1.0bn.

## Maersk Oil's exploration costs\*

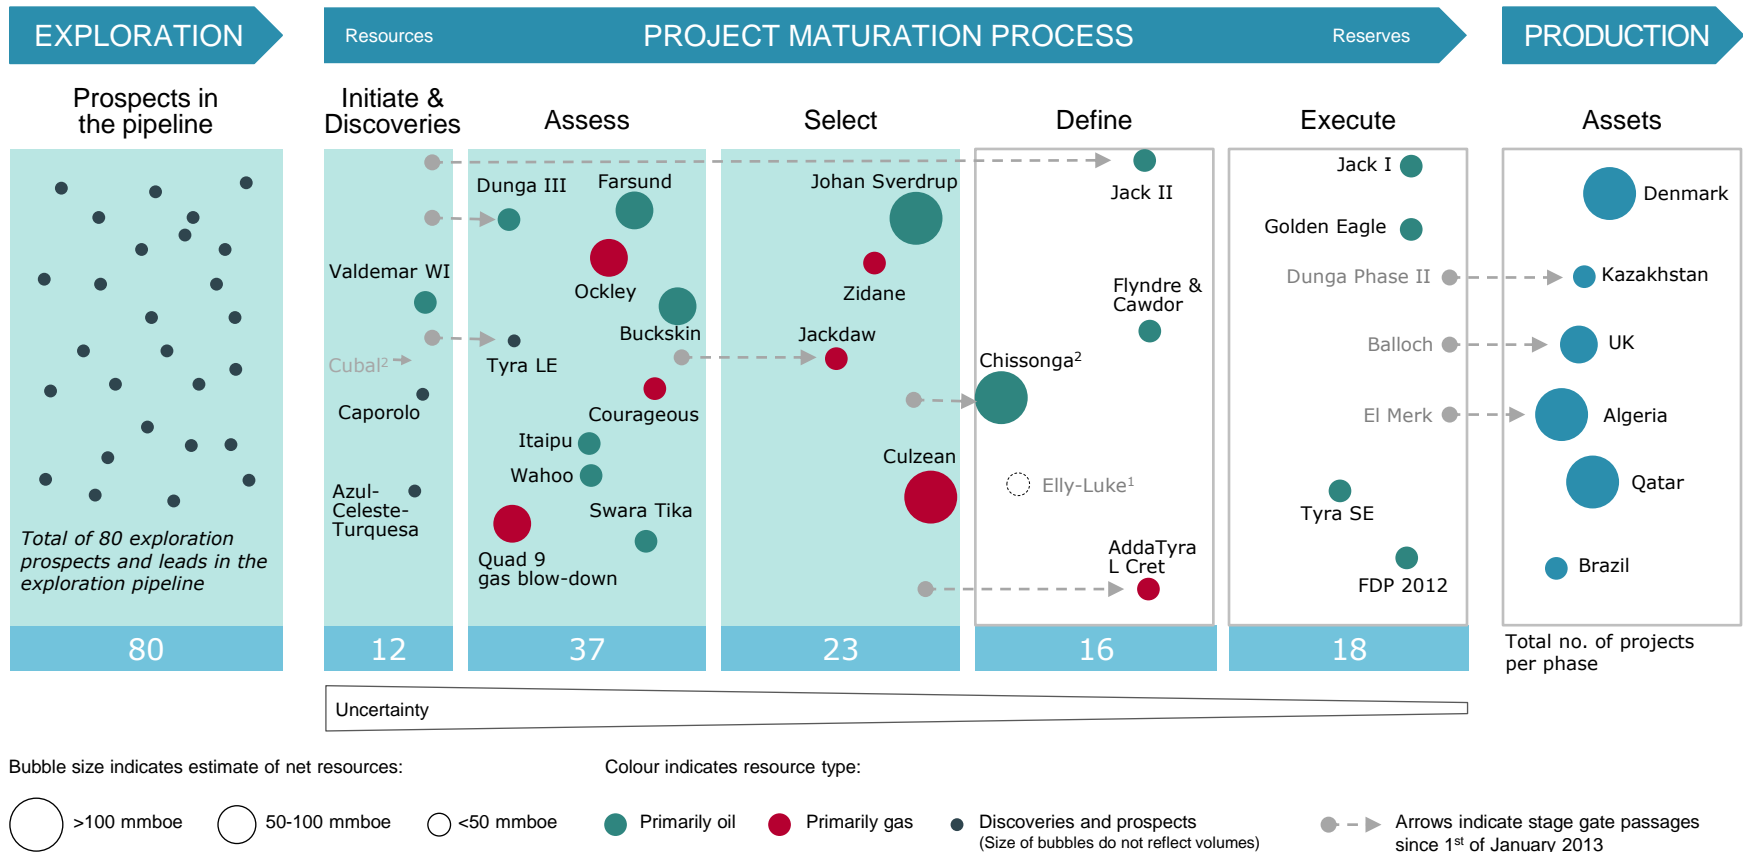

\*All exploration costs are expensed directly unless the project has been declared commercial

## Highlights 2013

- Maersk Oil delivered a profit of USD 1.0bn (USD 2.4bn incl. one-off income of USD 1bn) and a ROIC of 16.2% (35.7%)
- The result was impacted by an impairment of USD 97m regarding the Janice and Affleck fields (UK), the assets are now held at zero book value
- Entitlement production declined by 9% in 2013 compared to 2012
- Production growth was reinstated from Q3 onwards - 8% higher in Q4 compared to previous quarter - due to ramp up of El Merk (Algeria) and reinstatement of Gryphon FPSO (UK)
- Development plans for Chissonga (Angola) and Flyndre/Cawdor (UK) have been submitted to respective authorities for approval
- Exploration costs increased by 6% to USD 1.1bn
- 25 (23) exploration/appraisal wells drilled in 2013
  - Two successful deepwater wells in Angola
  - Six successful appraisal wells at Johan Sverdrup
  - 15 not commercially viable, two still under evaluation
  - Exploration drilling result for 2013 below expectations
- Major projects incl. Al Shaheen (Qatar), Chissonga (Angola), Johan Sverdrup (Norway) and Culzean (UK) were progressed
- Maersk Oil will update the market on the reserve & resource in connection with the Q1 financial result release on 21 May 2014

# Progress on the road to 400,000 boepd (Q4 2013)

- A maturing project portfolio

- 1) Maersk Oil, in agreement with the partners, decided to relinquish the Elly-Luke project in 2013  
 2) The Cubal discovery made in 2H 2013 has now been included in the field development plan for Chissonga

- Volume grew by 3% to 36.3m TEU driven by additions to the portfolio
- EBITDA-margin has remained stable at 20.6% (20.7%)
- Focus continues to be on improving productivity in existing terminals
- Portfolio initiatives:
  - Global Ports\* completed the acquisition of National Container Co. in Russia, making it the largest container terminal operator in Russia
  - New terminal projects were secured in Izmir, Turkey and Abidjan, Ivory Coast
  - Santos, Brazil commenced operations
  - Continued portfolio optimisation with net divestments gains of USD 70m (USD 117m)

\* APM Terminals holds a 30.75% co-controlling share in Global Ports

# Business description: Maersk Drilling

## Highlights

- Maersk Drilling is a leading global operator of high-technology drilling rigs and provides offshore drilling services to oil and gas companies
- Maersk Drilling's fleet is one of the youngest and most advanced in the world, and consists of premium, harsh and ultra-harsh environment assets
- Growing in the attractive ultra-deepwater segment with three units and newbuilding orders for four drillships
- Market leader in the Norwegian jack-up market with 6 out of 10 rigs and newbuilding orders for four jack-ups
- 50% stake in Egyptian Drilling Company, the largest land rig operator in the Middle East

## Maersk Drilling fleet

### Existing fleet\*

## Contracted days and coverage

## Highlights 2013

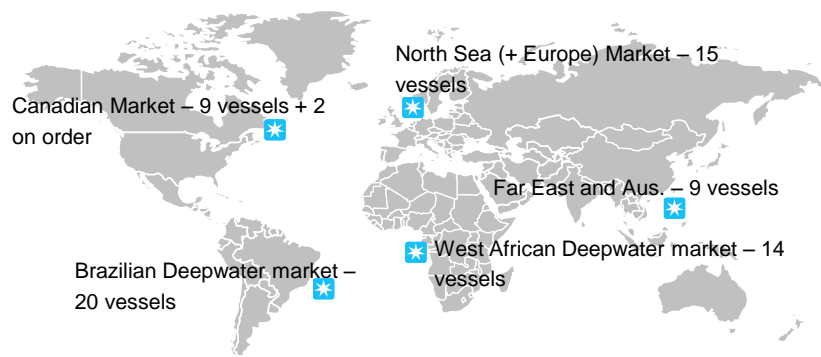

- Profit increased by 52% to USD 528m (USD 347m), marking Maersk Drilling's best annual result to date based on higher operational uptime (97% versus 92%), full utilisation of all rigs and higher day rates
- Maersk Drilling forward coverage is 94% for 2014 and 70% for 2015. Total revenue backlog increased to USD 7.9bn
- Major contracts signed in 2013:
  - Five year contract for operations in Norway for a newbuild jack-up rig, estimated contract value of USD 812m
  - A two year contract extension for a newbuild jack-up rig for operation in Norway. Estimated value USD 280m
  - A one year fixed contract for a jack-up rig for operation in Norway. Estimated value is USD 137m
- Maersk Drilling is preparing to take delivery of eight large rigs in 2014-2016, six to be delivered in 2014. Additional training and start-up costs are expected related to the rig fleet expansion which will negatively impact the result in 2014 and 2015
- Long term contracts secured for six of the eight rigs at attractive day rates
- The newbuilding programme is on budget, but the delivery of the first rigs is delayed by 2-4 months

- In 2013 Damco has undergone a global restructuring programme with the aim at simplifying and consolidating the operational structure within Damco. The benefits from the restructuring are expected to gradually materialise from the second half of 2014 and onwards

# Services & Other Shipping

## Underlying profit by activity 2013\*

\*Excluding gains, impairments and other special items

## Highlights 2013

### Maersk Supply Service

Reported profit of USD 235m (USD 132m), mainly attributable to higher utilisation and improved operational margins. Contract coverage (excl. options) is 56% for 2014 and 32% for 2015.

### Maersk Tankers

Reported loss of USD 317m (loss of USD 315m) including impairments and provisions for onerous contracts net USD 297m and restructuring costs of USD 36m. Excl. one-offs, the result was USD 8m (loss of USD 80m).

In line with strategy to focus on product tanker segments, the Very Large Gas Carriers (VLGC) and handy gas segments were divested in 2013. In January 2014, an agreement was reached to sell the fleet of 15 Very Large Crude Carriers (VLCC) vessels. Four MR vessels ordered to renew product fleet by 2016.

### Damco

Reported loss of USD 111m is significantly below last years' result (USD 55m). Result caused by significant one-off business transformation costs.

### SVITZER

Reported profit of USD 156m (USD 7m, impacted by USD 109m impairment of goodwill). LNG terminal towage contract won.

# Outlook for 2014

**The Group** expects a result significantly above the 2013 result (USD 3.8bn) impacted by the sale of Dansk Supermarked Group. The underlying result is expected to be in line with the result for 2013 (for continuing business USD 3.6bn) when excluding impairment losses and divestment gains.

Gross cash flow used for capital expenditure is expected to be around USD 10bn (USD 6.3bn), while cash flow from operating activities is expected to develop in line with the result.

**Maersk Line** expects a result in line with 2013 (USD 1.5bn). Maersk Line aims to improve its competitiveness although unit cost reductions will be less than in 2013. Global demand for seaborne container transportation is expected to increase by 4-5% and Maersk Line aims to grow with the market. Excess capacity is likely to depress freight rates.

**Maersk Oil** expects a result below 2013 (USD 1.0bn) based on an oil price of 104 USD per barrel. Maersk Oil's entitlement production is expected to be above 240,000boepd. Production will be higher in Q1 and Q4, whereas planned shut downs will result in lower production in Q2 and Q3. The entitlement production increase from 235,000boepd in 2013 is mainly based on higher contributions from Algeria and UK. Exploration costs are expected to be around USD 1.0bn.

**APM Terminals** expects a result above 2013 (USD 770m) and to grow more than the market supported by increased contribution from joint ventures and associates combined with productivity improvements in existing facilities.

## Sensitivities for 2014

Factors	Change	Effect on the Group's profit rest of year
Oil price for Maersk Oil	+ / - 10 USD/barrel	+ / - USD 0.2bn
Bunker price	+ / - 100 USD/tonne	+ / - USD 0.2bn
Container freight rate	+ / - 100 USD/FFE	+ / - USD 0.9bn
Container freight volume	+ / - 100,000 FFE	+ / - USD 0.2bn

**Maersk Drilling** expects a result below 2013 (USD 528m) due to planned yard stays in 2014 and high costs associated with training and start-up of operation of six new rigs.

**Services and Other Shipping** expect a result above 2013.

The Group's outlook for 2014 is subject to considerable uncertainty, not least due to developments in the global economy.

# Agenda
